

PowerStream Inc.
Schedule of Other Regulated Rates

Retail Transmission Rates
Effective April 1, 2005

Billing Determinants:

For an energy-only metered customer, the billing determinant is the customer's metered energy consumption adjusted by the Total Loss Factor as approved by the Board, and set out in this Schedule of Other Regulated Rates.

For a demand customer without an interval meter, the billing determinant for both the Network Service Rate and the Line and Transformation Connection Service Rate is the customer's peak demand at any time of the billing cycle.

For demand customer with an interval meter, the billing determinant for the Network Service Rate is the higher of 85% of the delivery point peak demand 7 a.m. to 7 p.m. or the transmission system coincident peak. The billing determinant for the Line and Transformation Connection Service Rate is the customer's peak demand at any time of the month.

Residential

Network Service Rate	(per kWh)	\$0.0059
Line and Transformation Connection Service Rate	(per kWh)	\$0.0027

General Service – Less than 50 kW

Network Service Rate	(per kWh)	\$0.0054
Line and Transformation Connection Service Rate	(per kWh)	\$0.0025

General Service – Greater than 50 kW with no interval meter

Network Service Rate	(per kW)	\$2.1855
Line and Transformation Connection Service Rate	(per kW)	\$0.9808

General Service – Greater than 50 kW with an interval meter

Network Service Rate	(per kW)	\$2.3211
Line and Transformation Connection Service Rate	(per kW)	\$1.0751

Large User

Network Service Rate	(per kW)	\$2.5701
Line and Transformation Connection Service Rate	(per kW)	\$1.2295

Street Lighting

Network Service Rate	(per kW)	\$1.6482
Line and Transformation Connection Service Rate	(per kW)	\$0.7582

Sentinel Lighting

Network Service Rate	(per kW)	\$1.6565
Line and Transformation Connection Service Rate	(per kW)	\$0.7740
