

EB-2012-0262

IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O. 1998, c.15 (Sched. B);

AND IN THE MATTER OF an Application by Natural
Resource Gas Limited, pursuant to section 36(1) of the
Ontario Energy Board Act, 1998, for an order or orders
approving or fixing just and reasonable rates and other
charges for the sale, distribution, transmission, and storage
of gas as of July 1, 2012;

AND IN THE MATTER OF the quarterly rate adjustment
mechanism.

By delegation, before: Adrian Pye

DECISION AND ORDER

June 21, 2012

Natural Resource Gas Limited (“NRG”) filed an application dated June 7, 2012, with the Ontario Energy Board (the “Board”) for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of gas commencing July 1, 2012 (the “Application”). The Application was made pursuant to NRG’s approved Quarterly Rate Adjustment Mechanism (“QRAM”).

NRG provided written evidence in support of the proposed changes outlined in the Application. The Application and pre-filed evidence was provided by NRG to all parties of record in NRG’s most recent rates proceeding, EB-2010-0018. The Application also set out the dates for filing comments and the company’s reply to those comments.

On June 13, 2012, Board staff sought additional information from NRG with respect to the Board's previous Decision and Order in Phase 2 of EB-2010-0018 dated May 17, 2011, that allowed NRG to purchase a maximum annual quantity of 1.0 million cubic meters at the rate of \$8.486 per mcf from NRG Corp. Board staff requested NRG to provide the pro-rated quantities for the 2012 fiscal year of NRG that ends September 30, 2012. In response NRG provided the quantities on a monthly basis from May 17 to September 30, 2012. NRG also indicated that they had not adjusted the price in the current QRAM and planned to retrospectively adjust the prices based on these quantities in the next QRAM application.

I have considered the evidence and find that it is appropriate to adjust NRG's rates effective July 1, 2012 to reflect the projected changes in gas costs and prospective recovery of the projected twelve-month balances of the gas supply deferral accounts for the period ending June 2013. I also find that it is appropriate to adjust NRG's reference prices to reflect the projected changes in gas costs.

NRG has indicated that it has not adjusted the price for gas purchased from NRG Corp. as per the Board's Decision of May 17, 2012. NRG can adjust the price based on the prorated quantities as per its response to a Board staff question, from May 17 to June 30, 2012, to be effective in the next QRAM application. For the remaining quantities that NRG has purchased from NRG Corp. during that period, NRG will have to adjust the price as per Union's current QRAM application (EB-2012-0249). These changes will be reviewed in the next QRAM application of NRG.

Pursuant to section 36(4.1) of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Schedule B, I have considered all deferral account balances related to the commodity cost of gas and am adjusting rates, as set out below, to dispose of the forecasted account balances.

IT IS ORDERED THAT:

1. The rates approved for Natural Resource Gas Limited as part of Decision and Order EB-2012-0069 dated March 21, 2012 shall be superseded by the rates as provided in Appendix "A" and attached to this Rate Order.

2. The rates shall be effective July 1, 2012 and shall be implemented in Natural Resource Gas Limited's first billing cycle commencing in July 2012.
3. The reference price for use in determining the amounts to be recorded in the PGCVA (Account No. 179-27) shall increase by \$0.001580 per m³ from the Board approved level of \$0.184054 per m³ to **\$0.185634** per m³ as shown in Schedule "A" of Appendix "A" attached to this Rate Order.
4. The balance in the Gas Purchase Rebalancing Account be prospectively cleared. The resulting gas supply charge will increase from the Board approved level of \$0.181045 per m³ to **\$0.183185** per m³ as noted in Schedule "A" of Appendix "A" attached to this Rate Order.
5. The appropriate form of customer notice as set out in Appendix "C" shall accompany each customer's first bill or invoice following the implementation of this Order.

NATURAL RESOURCE GAS LIMITED

RATE 3 - Special Large Volume Contract Rate

Rate Availability

Entire service area of the company.

Eligibility

A customer who enters into a contract with the company for the purchase or transportation of gas:

- a) for a minimum term of one year;
- b) that specifies a combined daily contracted demand for firm and interruptible service of at least 700 m³; and
- c) a qualifying annual volume of at least 113,000 m³.

Rate

1. Bills will be rendered monthly and shall be the total of:

- a) A Monthly Customer Charge:

A Monthly Customer Charge of \$150.00 for firm or interruptible customers; or
A Monthly Customer Charge of \$175.00 for combined (firm and interruptible) customers.

Rate Rider for Shared Tax Savings - effective until September 30, 2012 \$(8.84)

- b) A Monthly Demand Charge:

A Monthly Demand Charge of 29.0974 cents per m³ for each m³ of daily contracted firm demand.

- c) A Monthly Delivery Charge:

- (i) A Monthly Firm Delivery Charge for all firm volumes of 3.7644 cents per m³,
- (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 10.9612 cents per m³ and not to be less than 7.9412 per m³.

- d) Gas Supply Charge and System Gas Refund Rate Rider (if applicable) Schedule A

- e) Overrun Gas Charges:

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year,

including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:

- a) The volume of gas for which the customer is willing to contract;
- b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
- c) Interruptible or curtailment provisions;
- d) Competition.

3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.1530 cents per m³ for firm gas and 5.4412 cents per m³ for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m³ and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than NRG, the customer or their agent, must enter into a Bundled T-Service Receipt Contract with NRG for delivery of gas to NRG. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

**APPENDIX "C" TO
DECISION AND ORDER
BOARD FILE NO. EB-2012-0262
DATED: June 21, 2012**

IMPORTANT INFORMATION ABOUT YOUR GAS BILL

On all bills rendered by NRG on or after July 1, 2012, the price we charge for the gas commodity and transportation portion of your bill will be increasing by \$0.002140 per cubic meter to \$0.183185 per cubic meter. The Ontario Energy Board (OEB) has approved this change to reflect the prices that NRG expects that it will be paying to its gas suppliers through to the end of June, 2013. On your gas bill this cost is on the line entitled "Gas Commodity".

As a regulated utility, NRG is permitted to recover what it pays for the purchase of gas plus any costs reasonably associated with this purchase but with no mark up or 'profit'. The price the utility charges you is based on the forecasted gas and transportation costs to NRG, which are periodically reviewed by the OEB and reconciled with actual costs. The gas commodity portion gets adjusted regularly throughout the year as the price of the gas commodity changes.

How will this price change impact you? That will depend on the amount of gas that you use. For a typical residential customer who consumes approximately 2,009 cubic meters of gas annually, this price change will cause your annual heating costs to increase by approximately \$4 per year. For customers who have arranged to have their gas supplied by a gas marketer/broker, the price may or may not change depending on the terms of the contract the customer has with the gas marketer/broker.

If you have any questions about this rate change, please do not hesitate to contact us at 519-773-5321. We thank you for continuing to make natural gas your fuel of choice.
