Understanding the Price Comparison

This Price Comparison compares the price businesses in the northwestern part of Ontario pay for the natural gas commodity, transportation and storage bought from Enbridge Gas Inc. (Enbridge Gas) (Table A) to the contract price offered by the energy retailer (Table B). Table B also shows whether transportation and/or storage is included in the contract price offer. This is not a total bill

comparison.
Even if you switch to an energy retailer, you will still have to pay other charges every month to have your natural gas delivered to your business by Enbridge Gas. These charges include delivery and customer charges, as well as taxes.

The information in Table B and the “Description of Contract Price Offer” was prepared by the energy retailer. Table A and all other information was prepared by the Ontario Energy Board (OEB).
Table A shows the natural gas, transportation and storage prices set by the OEB and charged by Enbridge Gas. The natural gas price is

affected by the market price of natural gas and can change every 3 months. Table B shows the contract price for natural gas offered by the energy retailer, and whether you will be paying a contract price for transportation and/or storage or the price charged by Enbridge Gas.

Table A and B compare prices for 3 different levels of monthly gas use. The amount of natural gas your business uses may be different. Check your bill and select the m³ level that is closest to what your business uses each month.
